Network graph visualization showing numerous nodes and connections. The nodes are small circles, many containing text labels. The graph is highly interconnected, with many nodes having multiple connections. The overall shape is roughly circular, with a dense core and many smaller clusters extending outwards. The text labels are in various sizes and orientations, often following the edges of the connections. Some nodes are significantly larger than others, suggesting higher connectivity or importance. The background is white, and the lines connecting the nodes are thin and grey. The text labels are primarily black, with some in blue or red. The overall appearance is that of a complex social or professional network.
