

If you're looking for accommodation in or near Perugia during the festival, here is a list of options that might suit your needs.

The festival organization is not responsible for your choice of accommodation. Please ensure you check the location and ask for all the necessary information directly from the hotels.

For those booking rooms outside Perugia town centre, we suggest considering car or minivan rental for transport to and from the town centre. Taxi services are in high demand during the festival and in consequence it is not guaranteed that a taxi will arrive immediately to take you to or from the town centre.
